UNIVERSITY PARTNERS

## TEESSIDE UNIVERSITY, UNITED KINGDOM

Teesside University is a dynamic and modern institution, based in the north east of England, generating and applying knowledge that contributes to the economic, social and cultural success of students, partners and the communities we serve. We are an ambitious and enterprising university for a focused and pragmatic global new generation. We provide real opportunities and support to realise potential on a campus fit for the future and around the world. From developing an innovative and informed curriculum, tailored to industry, to addressing societal challenges on a global scale through inter-disciplinary research, the University's work is always relevant and purpose driven. Through education enriched by research, innovation and engagement with business and the professions, we transform lives and economies.

## UNIVERSITY OF ROEHAMPTON, UNITED KINGDOM

At the University of Roehampton, we change lives by helping our students to develop the confidence, knowledge and adaptability they need for a successful career and fulfilling life.

We are a supportive, close-knit and inclusive community where anyone can fit in and feel inspired to do their best. We have a proud history in education stretching back 180 years.

Our values of community, engagement and partnership are built on this rich history, with a belief that regardless of their background, we can help all our students realise their ambitions. We are dedicated to introducing new opportunities for students to learn in different ways.

## EDINBURGH NAPIER UNIVERSITY, UNITED KINGDOM

Edinburgh Napier University comprises 6 schools with an international focus, each committed to growing academic reputation, delivering an excellent personalised student experience and building innovation, enterprise and citizenship. The University has around 19,500 students studying across their three campuses in Edinburgh and on transnational education programmes with partners overseas.

Edinburgh Napier University is a nationally and internationally recognised education provider:

- Ranked 77<sup>th</sup> in The Complete University Guide 2021
- Ranked 13 (out of 54) in The Complete University Guide 2021 for Hospitality, Leisure, Recreation & Tourism
- Top 25 UK modern university for Marketing (25<sup>th</sup> of 84) by The Complete University Guide 2021
- Top 50 UK modern university for Business & Management Studies (49<sup>th</sup> of 123) by The Complete University Guide 2021
- Ranked 24<sup>th</sup> for Law by The Guardian University Guide 2020
- Awarded five QS Stars for teaching, employability and internationalism in the 2019 QS Stars rankings
- 95% of graduates are in work or further education within six months of graduating (HESA 2016/17)

## PURSUE YOUR HEALTHCARE AND NURSING COURSE WITH MDIS

Singapore's healthcare infrastructure is highly advanced and well-developed. With the government's continuous investments, an extensive healthcare sector has been established that responds to the increasing demands of an aging society and sets a global standard for high-quality healthcare services. The ongoing development of new acute and community hospitals, as well as home and community care sectors, points towards a growing need for skilled healthcare professionals. With the global shortage of such professionals, particularly those trained in various clinical specialties like Bachelor of Science in Nursing, it is evident that there's an increasing demand for healthcare administrators and managers with a Degree in Healthcare Management or a Master's Degree in Healthcare Management. There are numerous opportunities for employment in these fields for graduates.

# MASTER OF SCIENCE HEALTHCARE MANAGEMENT

## PROGRAMME OBJECTIVES

The Master of Science Healthcare Management programme will equip you with real knowledge and skills fit to work effectively within the complex and rapidly evolving healthcare environment. This programme aims to develop skills that will enable you as a healthcare professional to respond effectively in a rapidly changing health arena and is strongly influenced by market demands, economics and local, national and international health policies. The programme focuses on developing healthcare professionals who can actively advance service development in response to contemporary healthcare knowledge, research and innovation. This requires the skills and application of leadership, research and management strategies including working effectively in managing and leading a team. The focus of this programme is on employability; equipping you with evidence-based skills to work in broad based, integrated, complex, healthcare environments and roles. The programme offers you the opportunity to progress in health-related field of practices in areas such as Nursing Management, Human Resources, Corporate Planning and Development, Public Relations, Government Relations and Marketing. This programme has also been contextualised to meet the healthcare needs of Singapore by utilising the Ministry of Health, Leadership & Organisational Development Division ONE Healthcare Leadership Framework. This framework reflects these paradigm shifts and captures the qualities that leaders in healthcare need for the future. This overarching framework will guide your development as a leader in the healthcare sector in Singapore.

MDIS has the right to cancel a class/an intake if the minimum number of students enrolled is less than 10 for any programme per class. Students may enroll into a later intake, if any or withdraw from course. (For refund, please refer to our Refund Policy)

# BACHELOR OF SCIENCE NURSING (TOP-UP)

## PROGRAMME OBJECTIVES

The programme will enable you to develop the required critical, enquiring approach to nursing that supports the high quality, safe, evidence-based and effective care across dynamic, contemporary healthcare environments. Graduates of this programme will possess the knowledge, skills and abilities to practise collaboratively across health care settings and communities and within the context of the Singapore Nursing Board's Domains of Practice and the global perspectives of health.

This programme aims to develop your interest, knowledge and understanding of contemporary health care, in order to:

- Prepare you at graduate level with the necessary critical abilities, knowledge and skills to support high quality, safe and effective care within dynamic health care environments
- Enhance your current knowledge and skills to enable you to further develop your career in nursing
- Develop higher levels of competence in providing excellent care in a dynamic health care environment
- Develop the leadership and evidence-based, decision-making skills to enhance your practice and work co-productively within services and communities
- Enhance the development of advanced communication and interpersonal skills

Modules	
<ul style="list-style-type: none"> <li>• Healthy Lives</li> <li>• Promoting Excellence in Older People's Care</li> <li>• Advancing Practice Through Research</li> <li>• Assessing Health and Planning Care</li> </ul>	<ul style="list-style-type: none"> <li>• Leadership and Innovation: From Theory to Practice</li> <li>• Management of Chronic Disease</li> <li>• Learning, Teaching and Assessment in Practice</li> <li>• Exploring the Theory and Application of Law and Ethical Reasoning in Nursing Practice</li> </ul>

Management Development  
Institute of Singapore

Founded in 1956, the Management Development Institute of Singapore (MDIS) is one of Singapore's oldest not-for-profit professional institutes for lifelong learning. MDIS has two main subsidiaries: Management Development Institute of Singapore Pte Ltd which oversees its Singapore academic operations and MDIS International Pte Ltd which focuses on MDIS' globalisation strategy.

MDIS offers internationally-accredited courses in Business and Management, Engineering, Fashion and Design, Health and Nursing, Information Technology, Languages and Education, Life Sciences, Media and Communications, Psychology, Tourism and Hospitality Management and Safety and Environmental Management. These programmes are offered in collaboration with renowned universities in the United Kingdom and the United States of America. MDIS also has set a proven track record of preparing students to excel in the Singapore-Cambridge General Certificate of Education (Ordinary and Advanced Level), Cambridge International General Certificate of Secondary Education (IGCSE) and Cambridge International Lower Secondary, through its comprehensive preparatory courses.

MDIS is EduTrust certified, attesting to its exemplary education and business excellence standards. The institute was first awarded the certification in 2010 – subsequently renewed it for four years in 2014, 2018 and 2023. MDIS was also one of the first Private Education Institutions (PEIs) to be registered under the Enhanced Registration Framework.

Equally vested in corporate-level training, MDIS' corporate training arm, the Management Development and Consultancy, was set up in 1995 to cater to the training needs of the workforce. In 2014, MDIS acquired the Service Quality Centre to diversify its offerings in training solutions – in its endeavour to be a premium provider of training solutions in the region.

Apart from the main Singapore campus, MDIS has international campuses in Tashkent, Uzbekistan, Johor, Malaysia, as well as Dushanbe, Tajikistan. MDIS also has representative offices in India and Indonesia, as well as agents throughout Southeast Asia.

## MDIS STUDENT'S EXPERIENCE

**Julia Law**

MDIS Alumni  
Class of 2022

I have picked up some valuable lessons from this programme. My lecturers have opened my eyes to potential alternatives in critical thinking and treatment options when caring for my patients. As I develop and implement nursing care plans for patients in the inpatient ward, the knowledge and skills I have gained have proved helpful in ensuring that all my patients' needs are met.
